## **Brett Construction Company Ranks in Top 30 Metal Builders in the Nation**

*Construction of a new 200,000-SF pre-engineered metal building located in Lexington, Kentucky.*

**Lexington, KY** – Brett Construction Company continues to be one of the nation's top metal builders, as ranked by *Metal Construction News*, the nation's leading news magazine for the metal construction industry. The list ranks the top 100 metal builders in the United States by two segments – by tonnage of steel purchased and by square footage of metal constructed.

Brett Construction Company is the nation's #27 largest metal builder by tonnage of steel purchased with 1,780 tons in 2021, a 3.1 percent increase from their 1,725 tons in 2020. The firm also ranks #24 in square footage, with 400,500 square feet constructed in 2021. Brett Construction Company is the highest ranking Kentucky firm on either list, and the leading firm of only two Kentucky builders who made the list.

*"The construction industry has faced some significant challenges in recent years with scheduling and supply issues as well as fluctuating prices," said Brett Setzer, CEO of Brett Construction Company. "With more than 30 years of experience in the industry, we were able to utilize our knowledge and long-standing relationships with vendors and suppliers to continue providing quality service, timely delivery and overall project value to our clients."*

Brett Construction Company works with both Varco Pruden Buildings and Nucor Building Systems to create custom pre-engineered metal building (PEMB) solutions tailored to fit the individual needs of each client.

Brett Construction Company has more than 30 years of commercial construction experience, including industrial, institutional, educational, health care and commercial clients throughout the Commonwealth of Kentucky and the United States. Some of the firm's current and long-standing clients include FedEx, XPO Logistics, the Commonwealth of Kentucky, Transylvania University and Lexington Clinic. In addition, Brett Construction Company also shares ownership with Setzer Properties, a national real estate investment and development firm with more than 30 years of experience. The firm has developed more than 6.5 million square feet of space for projects across 30 states totaling more than \$750 million. Both firms are headquartered in Lexington, Kentucky.
